DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 and 22-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: It is agreed that the prior art of record fail to teach or suggest alone or in combination, the limitations: "the floating conductor pad positioned in the wireless communication device such that at least a portion of the floating conductor pad is adjacent to at least a portion of the antenna element (first antenna element) and positioned such that the proximity of the antenna element (first antenna element) and the floating conductor pad results in electromagnetic coupling between the antenna element (first antenna element) and the floating conductor pad, the floating conductor positioned to reduce the level of noise that could couple to the antenna element (first antenna element) from at least one of the device components in the wireless communication device" in a manner claimed in claims 1, 10 and 19. It is for these reasons in combination with all the other limitations in the independent claims 1, 10 and 19, that claims 1-20 and 22-24 are allowable over prior art of record.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
